

Mathematical Experience in Nepal

May 12-June 1, 2013

3 Credit Hours

Math 1101, Math 4998 or Math 8800 depending on your academic standing and mathematical skills.

Students will learn through self-exploration, observation, guided field trips, group discussions and lectures. Program involves field trips, excursions, hiking/backpacking and other fun activities.

Why study Mathematics in Nepal?

- 3 credit hours in less than 3 weeks
- No books to buy and tutor to hire
- No tests and final exam to take
- Evaluation based on completion, presentation and experience
- Once in a lifetime experience
